Call for Participation
3rd International Fujaba Days
"MDD in Practice"
University of Paderborn, Germany
September 15th-18th, 2005
http://fdays05.uni-paderborn.de

Topics and Goals
Fujaba is an Open Source UML CASE tool project started at the software engineering group of Paderborn University in 1997. In 2002, Fujaba has been redesigned and became the Fujaba Tool Suite with a plug-in architecture allowing developers to add functionality easily while retaining full control over their contributions.

Fujaba followed the model-driven development philosophy right from its beginning in 1997. At the early days, Fujaba had a special focus on code generation from UML diagrams resulting in a visual programming language with a special emphasis on object structure manipulating rules. Today, at least six rather independent tool versions are under development in Paderborn, Kassel, and Darmstadt for supporting (1) reengineering, (2) embedded real-time systems, (3) education, (4) specification of distributed control systems, (5) integration with the ECLIPSE platform, and (6) MOF-based integration of system (re-)engineering tools.

Quite a number of research groups have also chosen Fujaba as a platform for UML and MDA related research activities. In addition, quite a number of Fujaba users send us requests for more functionality and extensions.

Therefore, the 3rd International Fujaba Days aim at bringing together Fujaba developers and Fujaba users from all over the world to present their ideas and projects and to discuss them with each other and with the Fujaba core development team.

International Fujaba Days
The planned Structure/Program of the Fujaba Days will include
- An Invited Talk by Jean Bezivin on the ModelWare Project
- Position papers presenting innovative ways of using or extending Fujaba
- Reports of new features or projects extending Fujaba
- Tutorials on Fujaba4Eclipse, the new code generation approach, …

Start: Morning of September 15th, 2005
End: Afternoon of September 16th, 2005

Fujaba Programmers Days
The Fujaba Programmers Days are a regular event, where active Fujaba developers meet each other and spend two days together sharing their experiences, work on Fujaba extensions, …

Start: Afternoon of September 16th, 2005
End: Afternoon of September 18th, 2005

Organizer
Holger Giese
University of Paderborn, Germany
hg [at] uni-paderborn.de

Program Committee Chairs
Holger Giese
(University of Paderborn, Germany)
Albert Zündorf
(University of Kassel, Germany)

Fujaba Programmers Day Chair
Matthias Tichy
(University of Paderborn, Germany)
mtt [at] uni-paderborn.de

Program Committee Members
Gregor Engels
(University of Paderborn, Germany)
Holger Giese
(University of Paderborn, Germany)
Pieter van Gorp
(University of Antwerp, Belgium)
Sabine Glesner
(University of Karlsruhe, Germany)
Luuk Groenewegen
(Leiden University, Netherlands)
Reiko Heckel
(University of Leicester, UK)
Jens Jahnke
(University of Victoria, Canada)
Mark Minas (University of the Federal Armed Forces, Germany)
Manfred Nagl
(RWTH Aachen, Germany)
Jörg Niere
(University of Siegen, Germany)
Bernhard Rumpe
(TU Braunschweig, Germany)
Andy Schür
(TU Darmstadt, Germany)
Wilhelm Schäfer
(University of Paderborn, Germany)
Dániel Varó (Budapest University of Technology and Economics, Hungary)
Bernhard Westfechtel
(University of Bayreuth, Germany)
Albert Zündorf
(University of Kassel, Germany)
