Call for Participation

IWSM/MENSURA 2012

The Joint Conference of the 22th International Workshop on Software Measurement (IWSM) and the 7th International Conference on Software Process and Product Measurement (MENSURA)

October 17-19, 2012, Assisi, Italy

THEME & SCOPE

Software measurement and metrics are key technologies for managing and controlling software development projects. Measurement is essential for any engineering activity and for increasing scientific and technical knowledge regarding both the practice of software development and empirical research in software technology. This conference will facilitate the exchange of software measurement experiences between theory and practice.

KEYNOTES:

Alain Abran: Measurement & the Lessons from the Masters: The Benefits for Industry

Gioancarlo Succi: Understanding the Implications of Pair Programming

THEMES of SESSIONS

- Measurement Tools and Frameworks
- Process Measurement and Improvement
- COSMIC FP Measurement and Estimation
- Efficiency in Cloud Computing
- Size and Performance Measurement
- Error Prevention Models
- Monitoring of agile Software Projects
- Effort Estimation for Web Applications
- Quality Measurement and Evaluation
- Non Functional Requirements Measurement
- Measurement Repositories

CONFERENCE ORGANIZATION

General Chair:
Luca Santillo (Agile Metrics/GUFPI-ISMA, Italy)

Organizing Chair:
Filippo De Carlì (Shared Service Center/GUFPI-ISMA, Italy)

Program Chair:
Sandro Morasca (University of Insubria, Italy)
Luigi Buglione (ETS/Engineering.IT, Italy)

Steering Committee:
Alain Abran (École de Technologie Supérieure, University of Quebec, Canada)
Reiner R. Dumke (University of Magdeburg, Germany) and
Juan J. Cuadrado-Gallego (University of Alcalá, Spain)
